

Networks and HANC

For Scenario 1 - Known to DAIDS CRS

For Scenario 2 - New to DAIDS CRS

DAIDS continues to partner with HIV/AIDS Networks in the new grant cycle. The 4 networks include:

- AIDS Clinical Trials Group (ACTG)
- HIV Vaccine Trial Network (HVTN)
- HIV Prevention Trial Network (HPTN)
- International Maternal Pediatric Adolescent AIDS Clinical Trials Network (IMPAACT)

Below you will find links to resources for each network as well as contact information. Please direct any questions about protocol activation or continuation to the network contacts.

An Overview of HANC for Clinical Research Sites

The Office of HIV/AIDS Network Coordination (HANC) works with the NIAID HIV/AIDS clinical trials networks to create a more integrated, collaborative and flexible research structure. Based at the Fred Hutch in Seattle, Washington, USA, HANC has provided leadership and logistical support for cross-network coordination efforts since 2004.

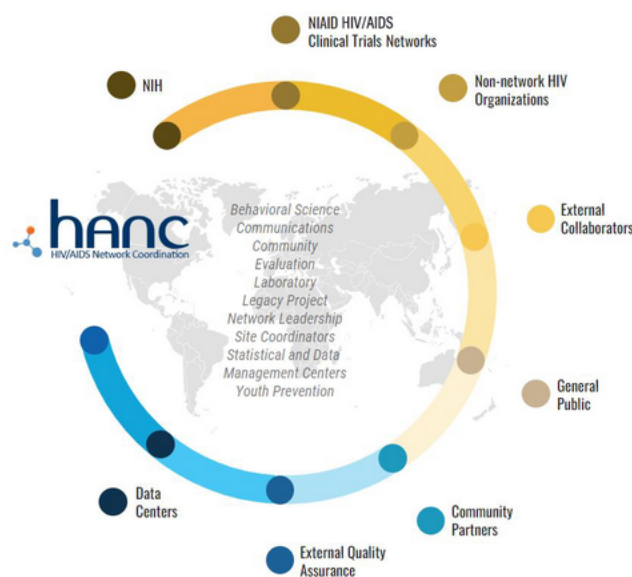

Our Mission

To support the science and operations of the networks by increasing efficiency and resource-sharing through coordination of critical activities across networks and with other research and advocacy partners.

Our Activities

HANC offers training, resources, channels for information sharing, and coordination of cross-network groups that communicate critical information across a number of program areas, including site operations, data management, laboratory, and community.

HANC Partners and Areas of Coordination

+ GENERAL RESOURCES

WEBINARS

HANC host webinars throughout the year, addressing a range of topics including HIV and aging, cure research, undeserved communities, and other hot topics in HIV research. Past webinars are recorded and available in the [webinar library](#) on the HANC website.

TRAINING

Find [training supplements](#) for use by NIAID HIV/AIDS clinical trials network staff and collaborators. Highlights include:

- HIV Research Counseling and Testing (HRCT)
- Women & Biomedical HIV Prevention
- HIV Prevention Research (HPR)

STAY CONNECTED!

Email hancadmin@hanc.info to join the HANC collaborator mailing list and receive monthly HANC newsletters, webinar announcements, and other news.

+ TOPIC-SPECIFIC RESOURCES

Community

COMMUNITY

- Recommendations for Community Involvement in NIAID HIV/AIDS Clinical Trials Networks
- Bill of Rights and Responsibilities
- Flyers explaining Long-Acting Antiretroviral Injectables (LAARVI) and Community Engagement Resources.

Investigators

INVESTIGATORS

- Links for current and future network investigators to scholars programs, data and specimen repositories, and network study proposal pages

Laboratory

LABORATORY

- Cross-Network SOPs including PBMC Processing, Cold Chain Guidelines, Tuberculosis Sourcebook, and Back-Up Lab and Lab Equipment Guidelines
- ACTG/IMPAACT Laboratory Manual, Specimen Shipping Guidelines, and FBS Ordering Procedure.
- CLIA and CAP Certificate Library
- Primary Network Lab Assignments and Network Affiliations

DAIDS

DAIDS

- Memos from the DAIDS Office for Policy in Clinical Research Operations (OPCRO) and Office of Clinical Site Oversight (OCSO)
- OPCRO/OCSO presentation slides and recordings
- OCSO Monitoring Operations Branch (MOB) Newsletters

Data & IT

DATA MANAGEMENT & IT

- IT Best Practices & Standards for DAIDS Sites

Site Management

SITE MANAGEMENT

- NIAID HIV/AIDS Clinical Trials Networks Financial Disclosure and COI Guidelines SOP

+ ADDITIONAL HANC PROGRAMS

The Legacy Project

THE LEGACY PROJECT

- The [Legacy Project](#)'s mission is to build trust and collaboration between historically underrepresented communities most impacted by the U.S. HIV epidemic, researchers, and research institutions; enhance cultural competence; and initiate scientific investigation to increase clinical research participation.

BTG

BE THE GENERATION

- [Be the Generation \(BTG\)](#) promotes community awareness, understanding, and support for HIV prevention research.
